

Trees for All

Non-profit organisation that plants trees worldwide to tackle climate change and preserve our natural habitat.

Trees for All collaborates with businesses to offer products like notebooks, where a portion of the sales goes towards reforestation.

Partnerships with Businesses

Through these partnerships, Trees for All gains resources to expand reforestation projects and environmental education efforts.

Active Contribution

If you buy a product that supports Trees for All, you are contributing to the organisation's efforts to promote reforestation, sustainable forest management, ecosystem restoration, and combatting climate change.

Working Together

Together, businesses support Trees for All's mission and work towards a greener, more sustainable world.

Making Impact

Trees for All has planted over 9.6 million trees and shrubs (2023).

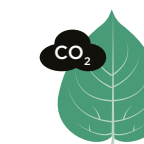

9,6 million

trees and shrubs planted in the Netherlands and abroad

107

sustainable reforestation projects carried out so far

683.000 tons

of CO2 compensated through certified carbon credits

2.208

business partnerships

24 years

of experience with reforestation
